TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Continuation of 4(e) Other:

The Applicant is thanked for the 'Response to Notice of Non-Compliant Amendment' (filed on 21 September 2007). However, a non-compliant amendment has been discovered in the aforementioned response, requiring attention before examination may continue.

MPEP 714(II) requires, "All amendments filed on or after July 30, 2003 must comply with 37 CFR 1.121 as revised in the notice of final rule making published in the Federal Register on June 30, 2003 at 65 Fed. Reg. 38611. The manner of making amendments has been revised to assist in the implementation of beginning-to-end electronic image processing of patent applications. Specifically, changes have been made to facilitate electronic image data capture and processing and streamline the patent application process. If an amendment filed on or after July 30, 2003 does not comply with revised 37 CFR 1.121, the Office will notify applicants via a Notice of Non-Compliant Amendment that the amendment is not accepted."

C.F.R. § 1.121(c)(2) requires, "All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of 'currently amended,' and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived."

The 'Response to Notice of Non-Compliant Amendment' (filed on 21 September 2007) improperly adds text to at least one claim without providing markings to indicate the changes (e.g., see Page 3; Claim 8, Line 18 -- wherein "a respective column ~~[[the]]~~ signal line" text is nonexistent in the originally submitted claim 8). The Applicant is either attempting to add "[[the]]" subject matter to claim 8, or trying to delete nonexistent "the" subject matter from said claim. Either way, the 'Response to Notice of Non-Compliant Amendment' (filed on 21 September 2007) has not been provided with the proper markings to indicate all claim text changes that have been made.

The Applicant is respectfully reminded to use the appropriate markings to indicate any changes that have been made relative to the immediate prior version of the claims, as required by C.F.R. § 1.121.

By such reasoning, this Notice of Non-Compliance is deemed necessary and proper at this time.

Please note: The amendments have not been checked to the extent necessary to determine the presence of all possible non-compliance errors. If additional issues of non-compliance are discovered at the time of a subsequent response, yet another Notice of Non-Compliance will be necessitated. Applicant's cooperation is requested in correcting any other errors of which Applicant may become aware.
